Get Connected

1. Ready
   First time, right out of the box:
   With earbuds turned off, activate Bluetooth pairing mode by pressing Power/Pairing button on. The LED flashes red/blue to indicate pairing mode.
   Pairing new phone/reconnecting original:
   With earbuds turned off, Press Power/Pairing button until the LED flashes red/blue.

2. Set
   Activate the Bluetooth feature on your device. The use phone menus to "add,""search" or "scan" for new Bluetooth devices.Phones have different menus to select from:
   iPhone: Settings > Bluetooth > On (starts the search for devices)
   BlackBerry® smartphone: Settings>options >Bluetooth:
   On > Search for devices
   Android™ smartphone: Settings > Bluetooth: On > Scan for devices

3. Connect
   Select "IPIPOO MUSIC" from the list of Bluetooth devicesshown on your device.
   If device asks for a passcode, enter four zeros (0000). You may see "***" on screen.
   Some devices also ask to confirm connection before pairing.
   The earbud's LED will stop flashing red/blue once successfully paired/connected.
   You can now make a call using your device's keypad or voice-dialing feature and enjoy audio listening from your device.

Try It On

The right fit = the best audio:
   For the best sound performance and a secure, Comfortable fit, Be sure to adjust the earbuds to rest gently in your ear. And drape around the back of your neck, Use the provided fit kit to find the earbip that works best for you.

Learn More

■ Stay near your device:
   Bluetooth has a working "range" of up to 33 feet between your phone and earbuds before audio degrades and the connection is lost. For best audio reception, keep your phone on the right side of your body.

■ Learn how to reconnect:
   Your earbuds try to reconnect a lost connection. If they can't, then tap the Call button once or manually reconnect via your phone's Bluetooth menu.

■ Decipher the beeps:
   If you have a call on hold, you will hear a beep every 5 seconds, If you are on hold, you will hear a beep every 30 seconds.
   In addition, if you long-press certain buttons (more than 2-seconds press), a feedback beep will be heard (example, accessing the Voice control feature on your phone).

■ Juggle two calls
   You can take a second call and place the first call on hold by tapping the call button to accept the new call.
   Switch between calls by pressing the Call button for a few seconds and you will hear a beep, indicating the switch is happening.

Learn More

You can end a call and return to the other call on hold by tapping the Call button. Some phones require tapping the Call button twice.

■ Use your voice:
   Some smart phones allow you to use voice commands to activate their features, such as voice-dialing or playing music.
   To activate your smart phone's voice controls, press the Call/Audio button until you hear your phone prompt you for a command.

■ Never miss a call:
   You will hear an incoming call alert while listening to stored or streaming audio. When you take the call, you stored audio (downloaded tunes, video or podcats) will pause.
   If you are listening to live streaming audio (internet radio) then it will mute, not pause, during your call. Once you end your call, your playback or streaming will resume.

■ Check the battery level:
   If you are on a call or listening to audio you will hear a tone when the battery is low.
   You can-check the battery level by tapping the Power button. The LED flashes to show the charge level.
   Blue flash=battery OK to full
   Red flash=less than 15 minutes call time remaining
